## CONDITIONS ATTACHED TO THIS AUTHORISATION

1. This authorisation is valid for multiple consignments and the net weight per consignment must not exceed 1 Kg.
2. The material must be packed in leak-proof sealed containers.
3. All inner and outer packaging must be swabbed with suitable disinfectant before leaving the exporting address.
4. Irrespective of the mode of transport, all specimens must be packaged so that they fully comply with the requirements of relevant Post Office or International Air Transport Association (IATA) regulations.
5. The packaging must be clearly labelled to indicate the nature of the product, that this is intended for *in vitro* use for research and that it is **not** for human or animal consumption.
6. Each consignment must be accompanied by a copy of this import authorisation and a commercial document which must confirm:
  - i. The description of the material and the animal species of origin;
  - ii. The category, 1, 2 or 3, of the material as defined in Articles 8, 9 or 10 of retained Regulation (EC) No 1069/2009<sup>1</sup>;
  - iii. The quantity of the material;
  - iv. The place of origin and the place of despatch of the material;
  - v. The name and the address of the consignor;
  - vi. The name and address of the consignee and/or user;
7. Each consignment must be accompanied by a signed and dated declaration completed by **the exporter, on headed** paper, confirming that:
  - i. the products are **not** derived from animals known or suspected to be infected with a pathogen which causes a notifiable disease to which the animals from which the products are derived are susceptible according to retained European Regulations<sup>2</sup> or the Animal Health Regulations of the exporting country; and
  - ii. the products **do not** originate from animals in a premises or region or zone of a country that is subject to official restrictions due to a notifiable disease to which the animals are susceptible according to European or other National Animal Health Regulations.
  - iii. **The histopathology tissue samples are subjected to formalin fixation for at least 48 hours in routine 4% formaldehyde in phosphate buffered saline to inactivate any pathogens present.**
8. The consignment must be sent directly from the point of entry into Great Britain to the authorised user at the destination address on page 1.
9. The material must be transported, handled and labelled in accordance with the Animal By-products Regulations.

10. The transporter and destination address must be registered or approved (see note E) in accordance with the relevant Animal By-Products (Enforcement) Regulations, (ABPE) before commencing operations.
  11. The products must remain in their original wrapping at all times until their arrival at the destination address on page 1.
  12. Users shall take all necessary measures to avoid the spreading of diseases communicable to humans or animals during the handling of the materials under their control, in particular by way of the application of good laboratory practice.
  13. The samples and material derived from the samples shall be for in vitro use only.
  14. Samples must be handled and stored under a minimum of containment level 2 (ACDP CL2 ) conditions.
  15. None of the material to which this authorisation relates shall be used for human consumption under any circumstances.
  16. Any subsequent use of these products for purposes other than those referred to in point 38 of annex 1 of retained Regulation (EU) No 142/2011, is prohibited.
  17. Importers shall keep a register of consignments of samples imported under this authorisation, which should contain the information referred to in condition 6 above as well as the date and method of disposal.
  18. Unless they are kept for reference purposes, transferred or re-dispatched to the third country of origin, research and diagnostic material, products derived from their use and waste shall be disposed of appropriately, in accordance with The Waste (England and Wales) Regulations 2011/The Waste (Scotland) Regulations 2012 or Animal By-Product Regulations (Retained Regulation (EC) 1069/2009 and Retained Regulation (EU) 142/2011).
  19. Any transfer of material from the authorised user to any other user must be pre-authorised by APHA.
  20. Any breach of these conditions must be reported to the Animal and Plant Health Agency (APHA) Centre for International Trade, Carlisle.
